Redefining Name Badge & ID Card Production

The **RTP Sygnature Pro** is engineered for high demand environments where speed and print quality are critical. Delivering near-offset results with minimal banding or cross-hatching, it achieves exceptional colour accuracy across every cards.

Producing up to **340 individual name badges per hour**, the Sygnature Pro handles both standard **CR80 cards** and **PPC's custom 1.3mm double-thickness name badges** with ease. The optional side hopper allows cards and name badges to be accessed without intervention, maximising workflow efficiency.

Ideal for **high quality and specialty card stock printing**, the RTP Sygnature Pro is the ultimate solutions for organisations that demand performance without compromise.

SPECIFICATIONS AT A GLANCE
